

Door Liner Installation

Installation – Door Liners require only the ratchet tool provided and can be installed in about 30 seconds. Simply follow the steps below.

- Step 1.** Lean both Left and Right Door Liners panels against the left and right door jambs with the Locking Plate at the top. Be sure the Locking Plates are disengaged per Step 1 of the Locking Plate Instructions.
- Step 2.** Slide the Header over the top of the Left and Right Door Liners. Position the Right Door Liner firmly against the right door jamb. Position the Left Door Liner firmly against the left door jamb. Engage the Locking Plates per Steps 2 and 3 of the Locking Plate Instructions.
- Step 3.** To de-install, disengage the Locking Plates per Step 4 of the Locking Plate Instructions. Remove the panels.

Completed Installation

WARRANTY

One (1) year manufacturer's warranty indicating both cab liner and door liner is free of defects in material and workmanship. Warranty will not cover normal wear and tear, damage incurred during transportation, installation, de-installation, nor Locking Plate compression exceeding 70 pounds, or if not stored in accordance with manufacturer's recommendations as described in all installation instruction sheets.
